PROFESSIONAL SUMMARY

Mechanical Engineering undergraduate with a growing foundation in Mechanical Design, CAD, Product Development, Manufacturing Engineering, and Industrial Engineering. Completed four weeks of industrial training at Western Railways, gaining practical exposure to maintenance operations, workshop engineering, and industrial workflows. Hands-on experience in SOLIDWORKS through component modeling and spur gearbox assembly, complemented by an ergonomics-focused design project. Passionate about developing efficient engineering solutions through analytical thinking, creativity, and continuous technical learning.

TECHNICAL PROFICIENCIES

CAD & Design : SOLIDWORKS • AutoCAD (Basic) • CAD Modeling • Engineering Drawing • Mechanical Assembly

Mechanical Engineering : Manufacturing Processes • Engineering Metrology • Preventive Maintenance • Industrial Engineering
Ergonomics • Product Design Fundamentals

Programming & Analysis : MATLAB • Python (Basic)

Professional Tools : Microsoft Excel • Microsoft PowerPoint • Microsoft Word • Canva

PROJECTS

Development of an Ergonomic Workstation Using Biomechanical Data Analysis

- Designed an ergonomic workstation to improve operator posture, comfort, and workplace efficiency.
- Evaluated ergonomic risk using the Rapid Upper Limb Assessment (RULA) methodology.
- Improved workstation ergonomics by reducing the RULA score from 6 to 4, lowering ergonomic risk and enhancing user comfort.
- Applied biomechanical principles to optimize workstation layout and minimize physical strain.

Spur Gearbox Design & Assembly | SOLIDWORKS

- Modeled individual spur gearbox components and assembled a complete gearbox using SOLIDWORKS.
- Applied assembly mates and engineering constraints for accurate positioning and alignment.
- Developed practical understanding of gear mechanisms, power transmission systems, and mechanical assemblies.

INDUSTRIAL TRAINING

Industrial Trainee | Western Railways – Coaching Depot, Indore

Duration: 4 Weeks

- Successfully completed four weeks of industrial training in railway coach maintenance and depot operations.
- Observed engineering activities across the Maintenance Section, Stores Department, Contract Management, Bio-Toilet Laboratory, Laundry Unit, Sick Line, and Establishment Department.
- Gained exposure to preventive maintenance, workshop practices, industrial safety, maintenance planning, and engineering documentation.
- Worked with precision measuring instruments during inspection and maintenance activities.
- Prepared a comprehensive technical report documenting engineering observations and departmental workflows.

CERTIFICATIONS

- **Industrial Training Certificate – Western Railways**
- IBM SkillsBuild – Prompt Engineering
- MATLAB Onramp – MathWorks
- Machine Learning Onramp – MathWorks
- Oracle Foundations Associate

ENGINEERING EXPOSURE

Precision Measuring Instruments

Vernier Caliper • Micrometer • Height Gauge • Dial Gauge
Surface Plate • Steel Rule

Technical Exposure

Workshop Practices • Mechanical Assembly • Railway Coach Maintenance
Engineering Reports • Technical Presentations • Industrial Safety

LEADERSHIP & ACTIVITIES

Participant | TechnoXian World Robotics Championship 2025, New Delhi

- Participated in an international robotics championship, gaining exposure to robotics, engineering innovation, and multidisciplinary collaboration.
- Explored emerging engineering technologies while strengthening teamwork and communication skills.

EDUCATION

Bachelor of Technology (B.Tech.) – Mechanical Engineering

Ujjain Engineering College, Ujjain

2024 – 2028

ADDITIONAL INFORMATION

Languages : English • Hindi • German (Elementary)

Career Interests : Mechanical Design • Product Design • Automotive Engineering
Manufacturing Engineering • Industrial Engineering

Key Strengths : Analytical Thinking • Design Thinking • Creative Problem Solving
Attention to Detail • Leadership • Team Collaboration
Time Management • Technical Communication
